Product family datasheet

BATTERYcharge SOLAR 200W

Works In overcast conditions
Doesn't require direct sunlight to provide power

Suitable for 12V leisure batteries
With over-charge protection and 200W power delivery, ideal for seasonal vehicles

IP65 water resistance
Designed to handle outdoor conditions with ease

High-Performance 200W Solar Panel for Reliable Off-Grid Power

The OSRAM BATTERYCharge SOLAR 200W is a high-performance, portable solar panel designed to charge and maintain 12V leisure batteries. Featuring mono-crystalline solar panels in a robust aluminum frame, it delivers up to 200W of free solar power, suitable for caravans, campervans, RVs, and outdoor use.

With a 12V/20A charge controller and USB output, it prevents overcharging while allowing you to also charge small devices. Its IP65 water-resistant design and sturdy aluminum stand ensure durability, while the plug-and-play setup makes it easy to use. Lightweight and foldable, it's ideal for off-grid adventures, even in overcast conditions. Comes with a 5 m battery lead and connecting clamps for

immediate use.

Technical data

	General Product Information	Environmental & Regulatory Information Information according Art. 33 of EU Regulation (EC) 1907/2006 (REACh)		
Product description	**Global order reference**	**Candidate list substance 1**	**CAS No. of substance 1**	**Safe use instruction**
BATTERYcharge SOLAR 200W	OHPS200	Lead	7439-92-1	The identification of the Candidate List substance is sufficient to allow safe use of the article.

Product description	**Declaration no. in SCIP database**
BATTERYcharge SOLAR 200W	6264e1b6-8329-4688-ae3e-97063604c835

Application advice
For more detailed application information and graphics please see product datasheet.
